

PROJECT PROFILE

Project Title	: Genome wide and geospatial approaches for enhancing the adaptive potential of threatened rattan resources in India (Network project)
Principle Investigator	: Dr. Modhumita Dasgupta, Scientist G
Duration	: 2019-2022
Objectives	1. Genome wide SSR diversity analysis and ecological niche modeling of selected wild rattan resources. 2. Identification and validation of gender specific markers for early sexing.
Funding Agency	: Department of Biotechnology, GoI
Total Budget	: Rs. 29.562 lakhs (IFGTB component)
